

# ISEW Library 2016 – Exchanging International Library Love

POSTED ON [30.6.2016](#) BY [VEERA RISTIKARTANO](#)

Helsinki University Library was proud to host its sixth international staff exchange week for library professionals from May 30 until June 3, 2016. 16 library professionals from European scientific libraries in 10 different countries gathered in Helsinki to spend a week sharing best practices, creating new ideas and building knowledge.

Hosting team at HULib had once again created a well planned program for the entire week, including several professionally challenging thematic sessions as well as wide range of social program for the visitors to enjoy the city of Helsinki and to get to know us Finns a little better.

As Helsinki was lucky to enjoy summer sun throughout the week, the international group had no trouble to spend a plenty of time outdoors and have great time along the way.

## ISEW Library in the future
